Student Club Event Ticketing & Budget Portal

Use-Case Flow Specification — Member 2 deliverable

USE CASE 2: Route Approval Workflow

Actor	Faculty Coordinator, Finance Office, Dean (secondary: Club Lead as notified party)
Priority	High
Related FRs	FR-001 (supporting: FR-002 proposal submission, FR-004 approval dashboard)
Focus	Multi-stage routing, approval logic, rejections

Preconditions

- Event proposal exists in the system with “Pending Faculty Review” status.
- All mandatory proposal fields are populated.
- Faculty Coordinator is authenticated and logged in.
- System workflow engine is operational.

Postconditions

- Proposal achieves either “Approved” or “Rejected” status.
- All approvers have digitally signed off (or rejected) with a timestamped record.
- Budget allocation is confirmed in the Finance system, if approved.
- Notification e-mails are sent to the Club Lead and all approvers.

Main Success Scenario

1. Faculty Coordinator receives the notification: “New proposal awaiting your review”.
2. Faculty Coordinator opens proposal PROP-2026-1024.
3. System displays the proposal details together with the required review checklist: event aligns with university values; event date does not conflict with other events; proposed budget is reasonable; venue is available and appropriate.
4. Faculty Coordinator reviews the checklist and marks all items as reviewed.
5. Faculty Coordinator adds optional comments: “Great initiative, approved from academic standpoint”.
6. Faculty Coordinator clicks “Approve”.
7. System records: “Approved by Faculty Coordinator on [date/time], [name]”.
8. Proposal automatically moves to the Finance Office queue.
9. Finance Office receives the notification: “Proposal ready for budget review”.
10. Finance Officer opens the proposal and reviews that the budget breakdown is realistic, that there are no duplicate budgets in the timeline, and that the expenditure is within policy.
11. Finance Officer approves with comments: “Budget allocation approved”.
12. Proposal moves to the Dean’s queue for final sign-off.
13. Dean reviews and approves: “Final approval granted”.
14. System marks the proposal as “Approved - Budget Allocated”.
15. Proposal status changes to “Ready for Event Setup”.
16. Confirmation e-mails are sent to the Club Lead, Faculty Coordinator, Finance Office and Dean.

Alternate Flows

Alternate Flow A: Faculty Rejects Proposal

- At Step 6, if the Faculty Coordinator clicks “Reject”:
  - System prompts for a rejection reason (mandatory).
  - Faculty Coordinator selects a reason such as “Budget not justified” or “Event objectives unclear”.
  - Faculty Coordinator provides detailed feedback comments.
  - System sends a rejection e-mail to the Club Lead with the feedback.
  - Proposal status changes to “Rejected - Resubmit”.

- Club Lead may resubmit with revisions after 48 hours.
- End Use Case.

Alternate Flow B: Finance Office Requests Clarification

- At Step 11, if the Finance Officer finds discrepancies:
  - Finance Officer clicks “Request Clarification”.
  - System e-mails the Club Lead: “Clarification needed on budget item: [item]”.
  - Proposal status moves to “Awaiting Club Response”.
  - Club Lead has 3 days to respond with the clarification.
  - Finance Officer reviews the response.
  - Resume from Step 11 (approve or reject decision).

Alternate Flow C: Dean Returns for Revision

- At Step 13, if the Dean clicks “Request Revision”:
  - Dean provides revision comments: “Need more detail on [X]”.
  - Proposal moves back to the Faculty Coordinator, not to the Club Lead.
  - System notifies Faculty: “Proposal revision requested by Dean”.
  - Faculty reviews the revisions and either approves or re-rejects.
  - If approved, the proposal goes back to Finance, then to the Dean again.
  - Resume from Step 10 (Finance review).

Alternate Flow D: High-Budget Fast-Track

- If the proposal was flagged as “High Budget” in Use Case 1:
  - Steps 8 and 9 are skipped — the Finance review is bypassed.
  - Proposal goes directly to the Dean after Faculty approval.
  - Dean exercises additional approval authority for high-budget items.
  - Resume from Step 12 (Dean review).
